Upon the original publication of this article, several author corrections were inadvertently left out, making several results in the article inaccurate. Oxford University Press apologises for and has since corrected these inaccuracies, listed in this erratum.

In the abstract, the following text should read: “to improve education of healthcare professionals and to ensure early specialist referral”.

Figures 2a., 2d., 3. and 4. were inaccurately placed. These have now been reorganised.

Figure 5. was omitted. This has been added in the “Recommendations for improved referrals” section.
