

Erratum

Erratum. Hypothesis: Role of Reduced Hepatic Insulin Clearance in the Pathogenesis of Type 2 Diabetes. Diabetes 2019;68:1709–1716

Richard N. Bergman, Francesca Piccinini, Morvarid Kabir, Cathryn M. Kolka, and Marilyn Ader

<https://doi.org/10.2337/db19-er12a>

In Fig. 5 of the article cited above, the word “glucose” was erroneously used in place of “insulin.” The text within the figure has been corrected to read “possible role of FFA to suppress liver insulin degradation and cause hyperinsulinemia, diabetes.” The authors apologize for the error.

The online version of the article (<https://doi.org/10.2337/db19-0098>) has been updated to correct this error.
