## A corrigendum on

### Diagnostic Value of microRNA for Alzheimer's Disease: A Systematic Review and Meta-Analysis

by Hu, Y.-B., Li, C.-B., Song, N., Zou, Y., Chen, S.-D., Ren, R.-J., et al. (2016). *Front. Aging Neurosci.* 8:13. doi: 10.3389/fnagi.2016.00013

In the originally published article, due to the author's misunderstanding of methods of RNA isolation, one of included studies (Leidinger et al. 2013) in **Table 3**, the source of miRNAs ie. (specimen column) should be "whole blood cell" instead of "plasma". And in **Table 1**, the citation (Leidinger et al. 2013) should be removed. The revised tables has been provided below. This error does not change the scientific conclusions of the article. The authors regret the error.

**Conflict of Interest Statement:** The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
