Correction to: The health equity measurement framework: a comprehensive model to measure social inequities in health

Douglas C. Dover^{1,2*} and Ana Paula Belon³

Correction to: *International Journal for Equity in Health* (2019) 18:36
<https://doi.org/10.1186/s12939-019-0935-0>

Following publication of the original article [1], the author reported a mistake in the caption related to Fig. 2.

The published caption “The blue line between “Social Location” and “Material Circumstances” should be double headed, having an arrow head at both ends” needs to be replaced with “Health Equity Measurement Framework”.

Also, in Fig. 2 the arrow linking “Social Location” and “Material Circumstances” should be pointing at both directions.

The original article has been corrected as well.

The publisher apologizes for any inconvenience caused by this error.
