

The Performance of Metagenomic Next-Generation Sequence in the Diagnosis of Suspected Opportunistic Infections in Patients with Acquired Immunodeficiency Syndrome [Corrigendum]

Liu L, Yuan M, Sun S, et al. *Infect Drug Resist.* 2022;15:5645–5653.

The authors have advised that affiliation 1 on page 5645 is incorrect. The correct affiliation should read “The First School of Clinical Medicine, Southern Medical University, Guangzhou, China”.

The authors apologize for this error.

Publish your work in this journal

Infection and Drug Resistance is an international, peer-reviewed open-access journal that focuses on the optimal treatment of infection (bacterial, fungal and viral) and the development and institution of preventive strategies to minimize the development and spread of resistance. The journal is specifically concerned with the epidemiology of antibiotic resistance and the mechanisms of resistance development and diffusion in both hospitals and the community. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
