## A Corrigendum on

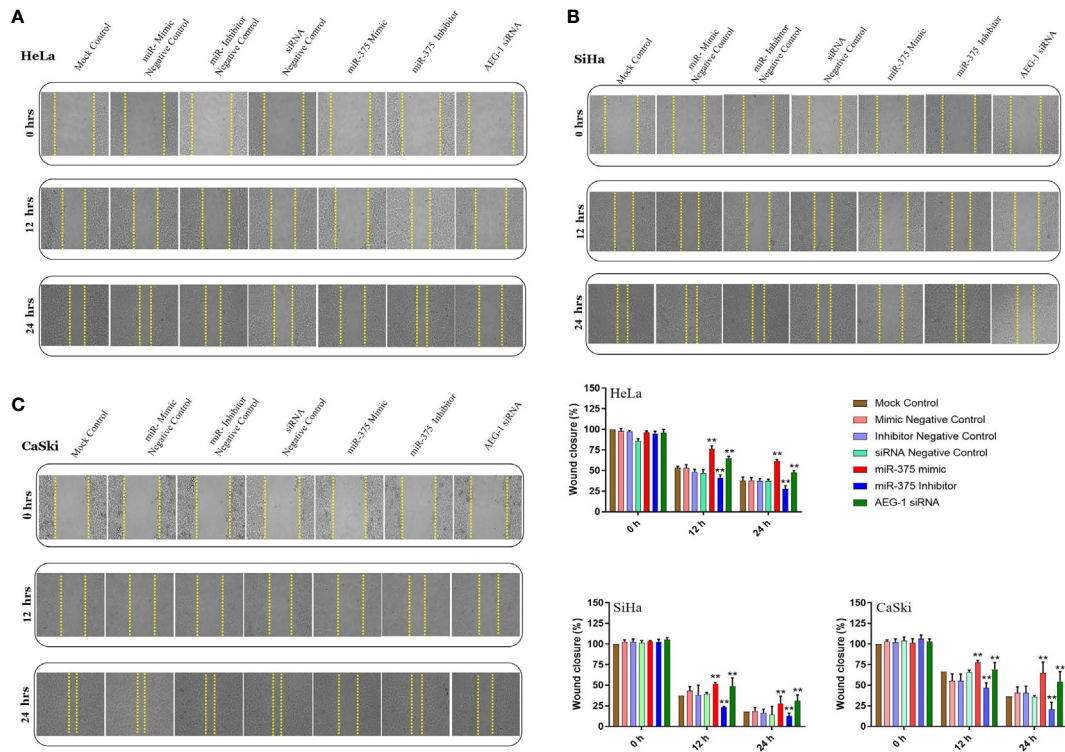

### Dysregulation of miR-375/AEG-1 Axis by Human Papillomavirus 16/18-E6/E7 Promotes Cellular Proliferation, Migration, and Invasion in Cervical Cancer

By Jayamohan S, Kannan M, Moorthy RK, Rajasekaran N, Jung HS, Shin YK and Arockiam AJV (2019) *Front. Oncol.* 9:847. doi: 10.3389/fonc.2019.00847

In the original article, there was a mistake in **Figure 3** as published. While image processing, we have grouped few pictures inadvertently in **Figure 3**. The corrected **Figure 3** appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

**FIGURE 3** | Ectopic expression of miR-375 inhibits cervical cancer cell migration. in vitro scratch assay with HeLa (A), SiHa (B) and CaSki (C) cell lines at 0, 12, and 24 h post-transfection with miR-375 mimic, miR-375 Inhibitor, AEG-1 siRNA and their controls. Gap distance of cells was quantified by using Image J. The scale bars represent 100  $\mu$ m. Error bars represent mean  $\pm$  s.d. and P-values are represented as \*\*P < 0.05 compared to the corresponding controls at a different time interval.
