(Molecular Therapy: Nucleic Acids 12, 600–609; September 2018)

This article has been retracted at the request of the editors.

Molecular Therapy - Nucleic Acids is retracting this article. After investigating concerns of image duplication raised by a reader, evidence for image duplication in identical or altered fashion in Figures 2C and 2D was identified. This reuse (and in part, misrepresentation) of data without appropriate attribution represents a severe abuse of the scientific publishing system. No authors responded to the notification of retraction.
