Age and Ageing, doi: [10.1093/ageing/afaa089](https://doi.org/10.1093/ageing/afaa089)

In the original version of this manuscript, an error occurred in the abstract. For the line, 'a minority (307; 38%) were classified as having low acuity (CTAS: 1–2)', 'low' should read 'high'. This has now been corrected and the author apologises for the error.
