

Associations of Baseline Sleep Microarchitecture with Cognitive Function After 8 Years in Middle-Aged and Older Men from a Community-Based Cohort Study [Corrigendum]

Parker JL, Vakulin A, Melaku YA, et al. *Nat Sci Sleep*. 2023;15:389–406.

The authors advise that the funding section on page 404 is incorrect. The funding statement should read as follows:

Funding

This study was funded by a National Health and Medical Research Council of Australia Project Grant (627227) 2010-12, The Hospital Research Foundation, and The Freemasons Foundation Centre for Male Health and Wellbeing. Financial support for the conduct of sleep studies (2011) and quantitative EEG analysis was obtained from the ResMed Foundation, California, USA.

The authors apologize for this error.

Publish your work in this journal

Nature and Science of Sleep is an international, peer-reviewed, open access journal covering all aspects of sleep science and sleep medicine, including the neurophysiology and functions of sleep, the genetics of sleep, sleep and society, biological rhythms, dreaming, sleep disorders and therapy, and strategies to optimize healthy sleep. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use.
