

Mood Disorders are Correlated with Autonomic Nervous Function in Chronic Insomnia Patients with OSA [Corrigendum]

Wan Y, Lv M, Zhou K, et al. *Nat Sci Sleep*. 2023;15:511-522.

The authors wish to advise that an unauthorized version of the Chinese MMSE was used by the study team without permission.

The MMSE is a copyrighted instrument and may not be used or reproduced in whole or in part, in any form or language, or by any means without written permission of PAR (www.parinc.com).

The issue was resolved between the authors and PAR.

The authors confirm that no test items from the unauthorized version of the Chinese MMSE are included in the article.

Publish your work in this journal

Nature and Science of Sleep is an international, peer-reviewed, open access journal covering all aspects of sleep science and sleep medicine, including the neurophysiology and functions of sleep, the genetics of sleep, sleep and society, biological rhythms, dreaming, sleep disorders and therapy, and strategies to optimize healthy sleep. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
