

## Errata

Dirk J.W. den Braanker, Rutger J. Maas, Jeroen K. Deegens, Cansu Yanginlar, Jack F.M. Wetzels, Johan van der Vlag and Tom Nijenhuis

Novel *in vitro* assays to detect circulating permeability factor(s) in idiopathic focal segmental glomerulosclerosis, *Nephrol Dial Transplant* 2020; gfaa211. doi: 10.1093/ndt/gfaa211

Due to the decision to use colour figures in the online version of this manuscript, all mention of “White bars: (disease) controls; black bars: patients responsive to PP (PP-resp); dotted bars: patients not responsive to PP (not PP-resp)” in the legend of Figure 1, 2 and 4 have been corrected as follows: “Yellow bars: (disease) controls; orange bars: patients responsive to PP (PP-resp); red bars: patients not responsive to PP (not PP-resp)”.

Emilio Sanchez, Sivakumar Sridharan , Rebecca Winzeler and Ron T. Gansevoort, ERACODA Collaborators

COVID-19-related mortality in kidney transplant and dialysis patients: results of the ERACODA collaboration, *Nephrology Dialysis Transplantation*, Volume 35, Issue 11, November 2020, Pages 1973–1983, <https://doi.org/10.1093/ndt/gfaa261>

In the originally published version of this article, the ERACODA collaborators were incorrectly listed. The names and affiliations of these Collaborating authors, and the number of records entered in the ERACODA database have now been moved from the accompanying supplementary material and are listed as a subsection within the Acknowledgements. The pagination of the article has been adjusted to reflect this change.

Supplementary Figures S1 and S2 were inadvertently omitted. These have been reinstated as part of the Supplementary Data.
