This Article contains errors.

Since the publication of this Article, the website hosting the assembly data has become inactive. The data has now been re-deposited in the DataverseNO repository. As such, the corrected Data Availability section should be as follows.

### Data Availability

The nanopore sequencing data are available in the European Nucleotide Archive (accession number PRJEB20018). The Racon- and Pilon-corrected candidate assembly is available at <https://doi.org/10.18710/NMTGUN>. The TULIP-scripts are available at <https://github.com/Generade-nl>.
