# Identification of a Lipid Homeostasis Related Genes Signature in Predicting the Prognosis, Immunity, and Chemotherapeutic Effect for Patients with Gastric Cancer

Chao Li[1], Zhen Xiong[1], Jinxin Han[1], Weiqi Nian[2], Zheng Wang[1], Kailin Cai[1], Jinbo Gao[1], Guobin Wang[1], Kaixiong Tao[1], Ming Cai[1*]

Supplementary figure S1

Calibration curves showed that the model performed well in predicting 6-year and 7-year survival in the TCGA-STAD cohort.
