

Erratum: Physiological Factor Evaluation of the Warm Humidification of Anesthetic Gas Nursing Care

In the article titled “Physiological Factor Evaluation of the Warm Humidification of Anesthetic Gas Nursing Care”, published on pages 397-402, Issue 4, Volume 6 of Asia-Pacific Journal of Oncology Nursing^[1], the author would like to add Reference 18 in “Discussion” section: This indicates that a reduction in body temperature during surgery causes the triggering of immunosuppression^[17,18] and also add an “Acknowledgements” section in the paper.

Reference 18. Park HS, Kang YH. Effects of heated-humidified anesthetic gas in the elderly patients with colorectal cancer during laparoscopic surgery: randomized controlled trial. J Korean Acad Adult Nurs 2018;30:206-15.

Acknowledgements

This manuscript is based on a part of the first author's doctoral dissertation.

The authors apologized for the error and for any confusion it may have caused.
