

Electronic supplementary data.

ESM Figure 1; Multiparameter fluorescent flow cytometry to show platelet expression under basal conditions for patients with T1D and healthy controls for A(i) CD62P, A(ii) PAC1 and A(iii) PS. * $p < 0.05$, ** $p < 0.01$, *** $p < 0.001$.

ESM Figure 2; Multiparameter fluorescent flow cytometry to show platelet expression under basal conditions for patients with T1D stratified according to insulin resistance measured by eGDR. Markers investigated are; A(i) CD62P, A(ii) PAC1 and A(iii) PS. * $p < 0.05$, ** $p < 0.01$, *** $p < 0.001$.
