Author Correction: Psychological impact of far-right terrorism against Muslim minorities on national distress, community, and wellbeing

Kate G. Byrne, Kumar Yogeeswaran, Martin J. Dorahy, Jessica Gale, M. Usman Afzali, Joseph Bulbulia & Chris G. Sibley

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-022-05678-x>, published online 31 January 2022

The original version of this Article contained errors. In the Measures section, under the subheading ‘Sense of community’,

“To measure sense of community, participants were asked to rate the item, “I feel a sense of community with others in my local neighbourhood” on a scale of 1 (“Strongly disagree”) to 5 (“Strongly agree”).”

now reads:

“To measure sense of community, participants were asked to rate the item, “I feel a sense of community with others in my local neighbourhood” on a scale of 1 (“Strongly disagree”) to 7 (“Strongly agree”).”

As a result of this error, the y-axis in Figure 1 is incorrect. Y-axis scale only runs from 1 to 7.

The original Figure 1 and accompanying legend appear below.

The original Article has been corrected.
