### ACKNOWLEDGMENTS

We thank Leo Zeef and Andy Hayes of the Bioinformatics and Genomic Technologies Core Facilities at the University of Manchester for providing support with regard to RNAseq. This work was funded by a Cancer Research UK Major Centre award [C147/A18083]; Sarcoma UK (SUK205.2016); and the NIHR Manchester Biomedical Research Centre. The results here are partly based upon data generated by the TCGA Research Network: <http://cancergenome.nih.gov/>.
