## Homozygous mutations in *C14orf39/SIX6OS1* cause non-obstructive azoospermia and premature ovarian insufficiency in humans

Suixing Fan, Yuying Jiao, Ranjha Khan, Xiaohua Jiang, Abdul Rafay Javed, Asim Ali, Huan Zhang, Jianteng Zhou, Muhammad Naeem, Ghulam Murtaza, Yang Li, Gang Yang, Qumar Zaman, Muhammad Zubair, Haiyang Guan, Xingxia Zhang, Hui Ma, Hanwei Jiang, Haider Ali, Sobia Dil, Wasim Shah, Niaz Ahmad, Yuanwei Zhang,\* and Qinghua Shi\*

(The American Journal of Human Genetics 108, 324–336; February 4, 2021)

In this article, the number of the mother in the far-right column of Table 1 was mistakenly assigned as "III-1." She should be assigned as "III-2." The reason for this error is that the order of the parents was switched according to the editor's recommendation, but the number of the mother in this isolated table was not changed accordingly at that time. The authors apologize for the error.
