Discovery of disease- and drug-specific pathways through community structures of a literature network

Minh Pham, Stephen Wilson, Harikumar Govindarajan,
Chih-Hsu Lin and Olivier Lichtarge

Bioinformatics (2019) doi: 10.1093/bioinformatics/btz857

The first version of this article contained the following errors:

Equation 1 was missing the absolute-value notion bars in the denominator.

Equation 2 contained an equal sign (=) instead of a minus sign (-), and an incorrect subscript (R_j instead of R_i).

A column heading in Table 3 incorrectly contained subscript instead of regular script (S_z instead of \hat{S}_z).

These have now been corrected.
