

Hard-Candy Consumption Does Not Have an Effect on Volume and pH of Gastric Content in Patients Undergoing Elective Gastrointestinal Endoscopic Procedures: A Randomized Controlled Trial [Corrigendum]

Somnuk P, Kitisin N, Chumklud P, et al. *Ther Clin Risk Manag.* 2022;18:1049–1057.

The authors have advised that there is an error in the Materials and Methods, Study Design section. Page 1050, first paragraph, line three, the text “(approval number SI188/2564)” should read “(approval number Si 342/2021)”.

The authors apologize for this error.

Publish your work in this journal

Therapeutics and Clinical Risk Management is an international, peer-reviewed journal of clinical therapeutics and risk management, focusing on concise rapid reporting of clinical studies in all therapeutic areas, outcomes, safety, and programs for the effective, safe, and sustained use of medicines. This journal is indexed on PubMed Central, CAS, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
