Author Correction: Soil $\delta^{13}\text{C}$ and $\delta^{15}\text{N}$ baselines clarify biogeographic heterogeneity in isotopic discrimination of European badgers (*Meles meles*)

Shay T. Mullineaux, Berit Kostka, Luc Rock, Neil Ogle, Nikki J. Marks, Rory Doherty, Chris Harrod, W. Ian Montgomery & D. Michael Scantlebury

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-021-04011-2>, published online 07 January 2022

The original version of this Article contained an error in the order of the Figures. Figures 7 and 8 were published as Figures 8 and 7. The Figure legends were correct at the time of publication.

The original Figures 7 and 8 and accompanying legends appear below.

The original Article has been corrected.

Published online: 24 March 2022

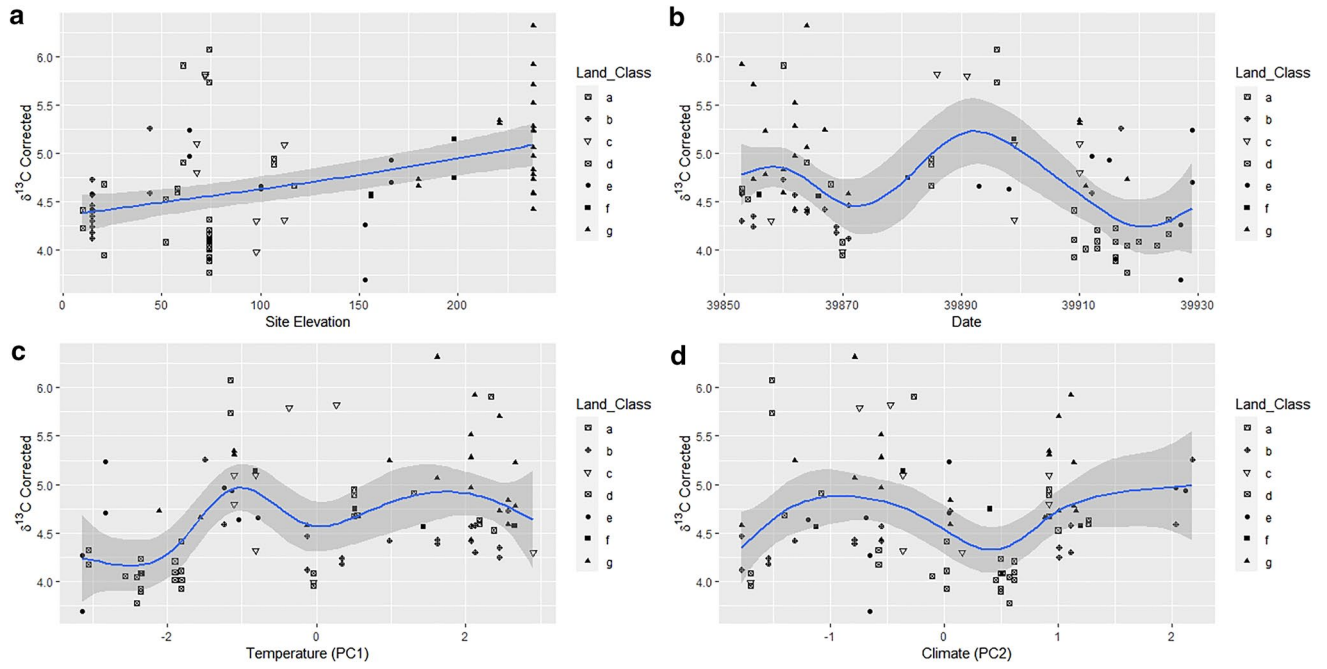

Figure 7. GAM factors smoothed for the hair dataset. Uncorrected $\delta^{13}\text{C}$ versus (a) Site Elevation, (b) Date, (c) Temperature PC1, and (d) Climate PC2. Solid lines indicate the trend line, and the shaded area is the approximate 95% point-wise confidence interval.

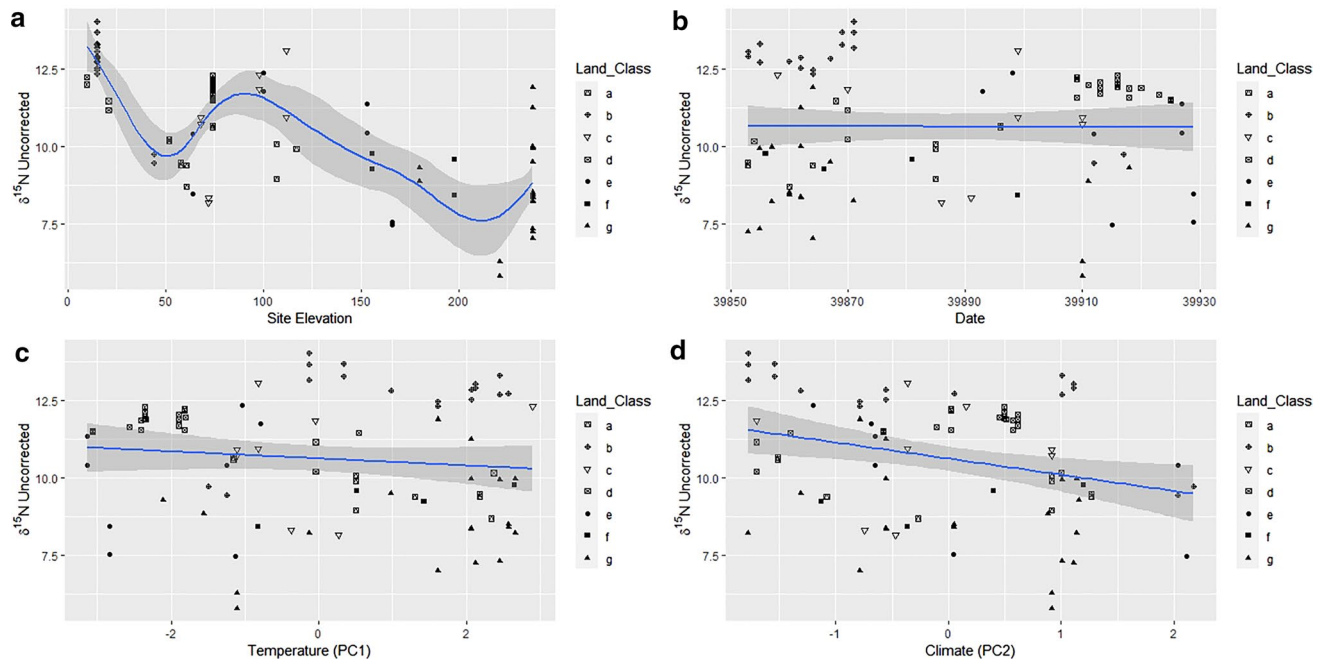

Figure 8. GAM factors smoothed for the hair dataset. Corrected $\delta^{13}\text{C}$ versus (a) Site Elevation, (b) Date, (c) Temperature PC1 and, (d) Climate PC2. Solid lines indicate the trend line, and the shaded area is the approximate 95% point-wise confidence interval.
