Correction: On the Ribosomal Density that Maximizes Protein Translation Rate

Yoram Zarai, Michael Margaliot, Tamir Tuller

There is an error in the equation under equation (10) of Proposition 3 under the “2.1 Optimal Density in the RFMR” subheading of the “2 Main Results” section. The correct equation is: $s^* = \frac{n}{2}$ and $e^*_i = 1 - e^*_{n+1-i}$ for all i .

There is an error in the first equation of Proposition 6 in the “B Appendix: Proofs” section. The correct equation is $e^*_i = 1 - e^*_{n+1-i}$ for any i .
