Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-019-11719-3>, published online 28 August 2019.

The original version of this Article contained an error in Fig. 7h. The mice labelled as treated with a P/AP-2/a-PD-1+P/AP-2/a-CTLA-4 construct were inadvertently treated with a P/AP-2/a-CTLA-4+P/a-PD-1/AON c-Myc construct. The experiment has now been repeated with the correct P/AP-2/a-CTLA-4+P/AP-2/a-PD-1 construct.

In addition, in the original version of Fig. 7f and g, some mice were excluded from survival analysis due to extracranial tumor growth or possible neurogenic shock. The mice that were excluded are now shown in the Supplementary Data associated with this correction.

These errors have been corrected in both the PDF and HTML versions of the Article.
