In the original published version of this article, a typographical error was present in Table 5 displaying ‘2.451’ in ‘Column: Female, Coefficient (β); Row: Hip Circumference’ instead of the correct value of ‘0.322’. The authors apologize for the mistake. The corrected version of Table 5 is displayed below.

**Table 5.** Multiple linear regression analysis showing variables independently associated with lean body mass.

	All			Male			Female		
	Coefficient (β)	t-statistic	P	Coefficient (β)	t-statistic	P	Coefficient (β)	t-statistic	P
Arm circumference (cm)	0.222	2.564	0.011	0.200	2.446	0.017	−0.230	−2.214	0.029
Waist circumference (cm)	0.183	1.605	0.110	−0.227	−1.656	0.102	0.100	0.876	0.383
Hip circumference (cm)	−0.154	−1.298	0.196	0.627	4.405	0.000	0.322	2.451	0.016
Thigh circumference (cm)	−0.149	−1.352	0.178	0.056	0.465	0.643	−0.029	−0.248	0.805
Calf circumference (cm)	0.718	6.736	0.000	0.306	2.874	0.005	0.714	5.778	0.000

Multiple linear regression was used for the analysis, adjusted with each other.
