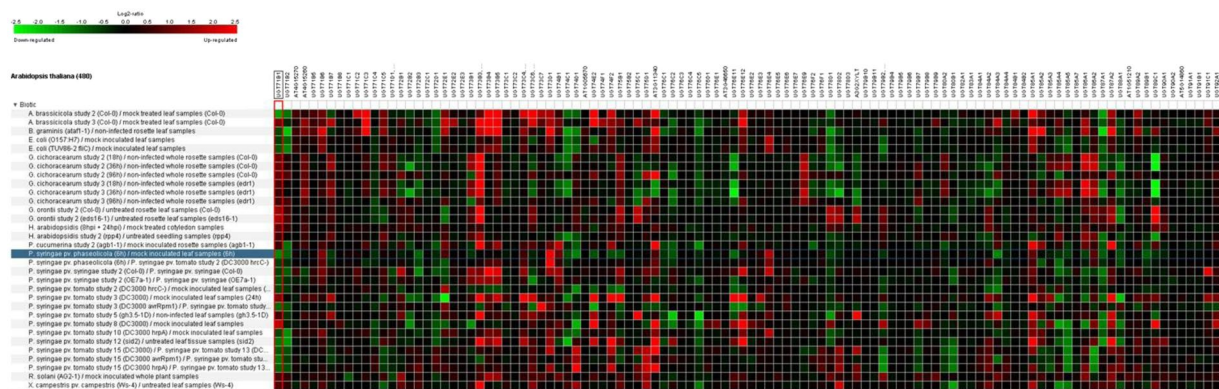

Figure 1. Differential expression of up and downregulated UGTs of *Arabidopsis* in response to different pathogen infestations (*A. brassicicola*, *B. graminis*, *E. coli*, *G. cichoracearum*, *G. orontii*, *H. arabidopsidis*, *P. cucumerina*, *P. syringae*, *R. solani*, and *X. campestris*). Green color is showing down regulated UGTs and red color is showing up regulated UGTs.
