Retraction Note: The quantum physiology of oxygen; from electrons to the evolution of redox signaling in the human brain

Damian Miles Bailey

Retraction to: *Bioelectronic Medicine* (2018) 4:13.
<https://doi.org/10.1186/s42234-018-0014-7>

Retraction Note

This article (Bailey, 2018) has been retracted at the request of the author due to significant overlap with one of his other publications (Bailey, 2019) without proper citation. This article is considered redundant. The author agrees to this retraction.
