Received: 6 February 2020; Accepted: 10 February 2020; Published: 12 February 2020

The authors wish to make the following corrections to this paper [1]: the hematoxylin and eosin-stained images of kidney in the group of healthy tissue in Figure 8 of this work [1] inadvertently duplicated the kidney results of the PBS group. After the publication of this work, we noted the mistake and issued an erratum for correction. Figure 8 has now been corrected in this erratum.

The authors would like to apologize for any inconvenience caused to the readers by these changes.

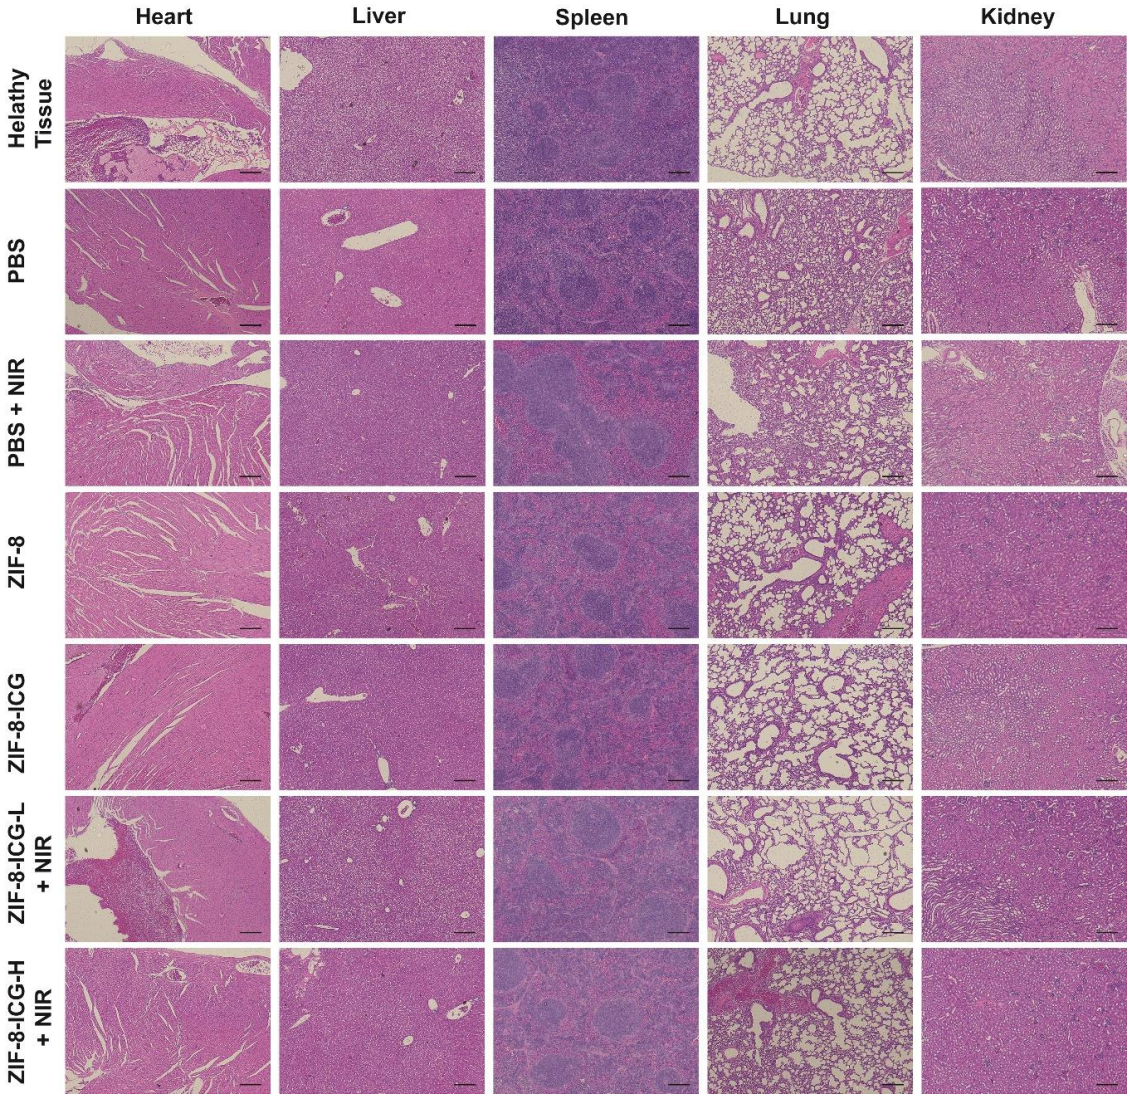

Figure 8. Hematoxylin and eosin-stained images of major organ sections after treatments with PBS, PBS+NIR, ZIF-8, ZIF-8-ICG, ZIF-8-ICG-L+NIR, and ZIF-8-ICG-H+NIR (Scale bar: 50 μm).
