*J Gen Virol* 2017;98:1161–1162, doi: 10.1099/jgv.0.000836

The International Committee on Taxonomy of Viruses has ratified a taxonomic proposal to change the name of the family *Ophioviridae* to *Aspiviridae*, and to change the names of species in the family to *Blueberry mosaic associated ophiovirus*, *Citrus psorosis ophiovirus*, *Freesia sneak ophiovirus*, *Lettuce ring necrosis ophiovirus*, *Mirafiori lettuce big-vein ophiovirus*, *Ranunculus white mottle ophiovirus* and *Tulip mild mottle mosaic ophiovirus*. These species are all members of the genus *Ophiovirus*, the genus name being unchanged.

The ICTV Online (10th) Report on the family *Aspiviridae* can be found at [www.ictv.global/report/aspiviridae](http://www.ictv.global/report/aspiviridae).
