Online Resource 1: The reference values for laboratory parameters

Laboratory Parameters	Reference Values
Hemoglobin(g/L)	110-160
WBC($\times 10^9$ /L)	4-10
PLT($\times 10^9$)	100-350
ALB(g/L)	35-52
Cr(μ mol/L)	45-84
β 2-MG(mg/L)	0.10-0.30
NEU($\times 10^9$ /L)	2.00-7.00
LYM($\times 10^9$ /L)	0.80-4.00
MONO($\times 10^9$ /L)	0.12-0.80
LDH(U/L)	25-247
CRP(mg/L)	0-6

WBC: white blood cells; PLT: platelets; ALB: albumin; Cr: creatinine; β 2-MG: β 2-microglobulin; NEU: peripheral blood neutrophil count; LYM: lymphocyte count; MONO: mononuclear cell count; LDH: lactate dehydrogenase; CRP: C-reactive protein
