Erratum to: Histochem Cell Biol
(2016) 145:163–173
DOI 10.1007/s00418-015-1390-7

Unfortunately, in the original publication of the article, the sentences “We first investigated the role of the PLC η 2 calcium-binding EF-hand domain, a domain that is known to be required for PLC η 2 activation” and “Taken together, these data emphasize the importance of the PLC η 2 EF-hand domain and articulation of PLC η 2 with LIMK-1 in regulating neuritogenesis” were incorrectly published in the abstract section.

The correct sentences should read as follows:

“We first investigated the role of the PLC η 2 calcium-binding EF-hand domain, a domain that is known to be required for calcium-dependent PLC η 2 activation” and

“Taken together, these data emphasize the importance of PLC η 2 and its articulation with LIMK-1 in regulating neuritogenesis.”

The online version of the original article can be found under doi:[10.1007/s00418-015-1390-7](https://doi.org/10.1007/s00418-015-1390-7).
