Retraction: End-of-life discontinuation of destination therapy with cardiac and ventilatory support medical devices: physician-assisted death or allowing the patient to die?

Mohamed Y Rady^{1*}, Joseph L Verheijde²

The authors have voluntarily retracted this article [1] and it is no longer available for online public display because portions of the article are similar to a previous publication [2]. While there was no intention to use pre-existing work without appropriate attribution, the authors nonetheless extend their apologies to Dr. Miller and all others concerned.
