Author Correction: Cryo-EM structure of the bacterial Ton motor subcomplex ExbB–ExbD provides information on structure and stoichiometry

Herve Celia , Istvan Botos, Xiaodan Ni, Tara Fox, Natalia de Val, Roland Lloubes, Jiansen Jiang  & Susan K. Buchanan 

Correction to: *Communications Biology* <https://doi.org/10.1038/s42003-019-0604-2>, published online 4 October 2019.

In the original version of the published article, the caption to Figure 2e contained the following text that incorrectly referenced ExbB and an incorrect PDB code: “Ribbon representation of the solution structure of the ExbB soluble periplasmic domain (in green, pdb code 2PDU)⁴ and ExbB–ExbD”.

This has been replaced with the following corrected text: “Ribbon representation of the solution structure of the ExbD soluble periplasmic domain (in green, pdb code 2PFU)⁴ and ExbB–ExbD”. The error has been corrected in the HTML and PDF versions of the article.
