Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-020-20237-6>, published online 7 January 2021.

The original version of this Article was updated shortly after publication to update the volume number. During the update to the volume, the Article incorrectly gave a publication date of 7 January 2021 and Article number of 6450 in the PDF and HTML version; the correct publication date should have been 12 January 2021 and the correct Article number should have been 20211.

This has now been corrected in both the PDF and HTML versions of the Article.
