

# Supplementary information

**Supplementary Figure 1.** RT-PCR results of human NAG1 (Product size = 169 bp) and those of their GAPDH (product size = 453 bp) in 293T cell line.

**Supplementary Figure 2.** RT-PCR results of feline NAG1 (Product size = 678 bp) and those of their GAPDH (product size = 683 bp) in CRFK cell line.

**Supplementary Figure 3.** Western blot results of Bax (MW = 20 kDa) and those of their GAPDH (MW = 36 kDa)
