Liu B, Paskov K, Kent J, et al. Racial and ethnic disparities in geographic access to autism resources across the US. *JAMA Netw Open*. 2023;6(1):e2251182.
doi:10.1001/jamanetworkopen.2022.51182

eAppendix 1. The 6 Racial and Ethnic Categories Defined by the Office of Civil Rights, US Department of Education

eAppendix 2. Resource Types, Description of Category, and Corresponding Number of Resources in GapMap

eFigure. Differences in Access to Autism Services by Racial and Ethnic Group

eAppendix 3. Autism Resources Availability by Racial and Ethnic Group for All Core-Based Statistical Areas in the US

This supplemental material has been provided by the authors to give readers additional information about their work.

eAppendix 1. The 6 Racial and Ethnic Categories Defined by the Office of Civil Rights, US Department of Education

Racial/Ethnic Category	Definition
American Indian or Alaska Native	A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.
Asian	A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
Black or African American	A person having origins in any of the black racial groups of Africa. Terms such as “Haitian” or “Negro” can be used in addition to “Black or African American.”
Hispanic or Latino	A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. The term, “Spanish origin,” can be used in addition to “Hispanic or Latino”.
Native Hawaiian or Other Pacific Islander	A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
White	A person having origins in any of the original peoples of Europe, the middle East, or North Africa.

eAppendix 2. Resource Types, Description of Category, and Corresponding Number of Resources in GapMap

Resource Type in GapMap	Description of Resource	Number of Resources
Diagnostic Service	A center that administers autism diagnoses.	2978
Therapy Service	A center that provides therapy and behavioral type services (ex. ABA) to patients with autism.	10722
Adult Services	Autism services that focus particularly on providing care and assistances to adults.	5128
School Resources	An autism resource that is connected to a school or school system.	15596
Others	An autism resource that does not fall into the prior categories (ex. health, camps, and recreational)	24261

A resource center can be classified under multiple resource types.

eFigure. Differences in Access to Autism Services by Racial and Ethnic Group

A, shows the bootstrapped distributions of coefficients for each group. Black horizontal lines indicate bootstrapped 95% confidence intervals. Vertical dotted lines show 95% confidence intervals for the majority race and ethnicity group (White). P values stem from comparison of model estimated numbers of resources/child for the race and ethnicity group to the estimated allocations for the White resources/child group. Hispanic or Latino children received significantly fewer resources in comparison to White children. B, shows the fit of the regression model estimates to the raw number of resources per CBSA. *The linear regression with the constraint of nonnegative coefficients makes it such that estimates stemming from race and ethnicity populations who are small in numbers in the United States (eg, American Indian or Alaska Native) could have large confidence intervals and/or resolve to low or even zero estimates in the model. Estimates close to zero indicate that children from this race and ethnicity group have no effect on autism resource allocation.

eAppendix 3. Autism Resources Availability by Racial and Ethnic Group for All Core-Based Statistical Areas in the US
